

WorkLink: Bridging the Gap Between Injury and Employment

A Smarter Path to Return-to-Work Readiness

At OSS Health, we understand that getting injured workers safely and efficiently back on the job is a top priority. That's why we created WorkLink—a comprehensive work hardening program designed to simulate real-world job demands, accelerate recovery, and deliver measurable results.

Why Choose WorkLink?

✓ Customized Plans for Every Worker

Each participant receives a tailored program based on their job duties, physical capabilities, and recovery goals.

✓ Real-World Job Simulation

We replicate actual work tasks to build strength, endurance, and confidence—ensuring workers are truly job-ready.

✓ Multi-disciplinary Collaboration

Our physical therapists work directly with OSS Health providers, engaging in one-on-one communication to align care plans and ensure optimal claim outcomes.

✓ Proven Results

WorkLink has helped countless individuals return to work safely and efficiently—reducing lost time, lowering claim costs, and improving satisfaction for all stakeholders.

Who Benefits from WorkLink?

- **Employers:** Reduce downtime and claim costs with faster, safer return-to-work outcomes.
- **Case Managers:** Gain confidence in a program that delivers consistent, measurable progress.
- **Insurers:** Partner with a trusted provider that prioritizes functional recovery and claim resolution.
- **Patients:** Regain strength, confidence, and job-readiness through personalized care and real-world job simulation—empowering a safe and successful return to work.

In addition, we offer Functional Capacity Exams and Fit for Duty Testing!

Let's Get to Work!
