

Commitment to Excellence

If hired by OSS Health, I will commit to the OSS Health Mission, Culture and 5-Star Customer Service initiative. As a valued team member of the organization, I will abide by all policies and the OSS Health Corporate Credo.

I understand that if I am offered employment at OSS Health, I will be required to pass a post-offer/pre-employment drug screen.

I understand that if I am offered employment at OSS Health, it is contingent upon passing any required criminal background clearances. The required criminal background clearances will be done for all employment offers for positions as specified by the Child Protective Services Law.

In an effort to protect the health and well-being of our patients, I understand that I will be required to receive an influenza vaccination and submit to PPD testing at the time of hire. Accommodations can be made for religious or personal health reasons.
