

It is important to the physicians of OSS Health that our patients understand the care that is recommended so that appropriate healthcare choices can be made. For this reason, we wish to inform you that OSS Health meets the federal definition of a physician-owned hospital and that some of our physicians have a financial interest in OSS Health, including the OSS Health Ambulatory Surgery Center, the OSS Health Pain Center and the OSS Orthopaedic Hospital. If for whatever reason you prefer not to use our facility, other arrangements can be made for your services. A list of physicians who have a financial interest in OSS Health is on file and will be provided upon request. To request a copy of the list, please contact the OSS Health Administrative offices at 717-747-8308. Clearly in making healthcare decisions, patient choice is the most important factor and you should feel free to choose whatever facility you desire.
